

Ovenable Bags

Introduction

Smartpak offers a range of cooking bags ideal for a range of scenarios. The meat browns inside the oven bag, cooks up to 10% faster, and all the juices and flavours are retained within the bag. A Combination of seasonings and spices, gravies and marinades can be added to the oven bag as cooking in this way enhances the flavours and juiciness.

Smartpak's Steam Cooking Bags

- Cooks food to perfection in just a few minutes
- Perfect for fish, meats, desserts and sauces
- Easy convenience food with minimal fuss and maximum taste
- Suitable for freezing
- Simply microwave and serve
- Available in self-seal and heat-seal options

Smartpak's steam bags are microwavable cooking bags which allow food and sauces to be cooked to succulent perfection in a matter of minutes. Used to steam-cook food in the oven or microwave. We have a range of options to choose from including self-seal or heat-seal, special venting options, a wide-range of colours and sizes including individualised packaging for meal-kits.

Ovenable Bags

Cooking Bags (Polyester)

- Made from polyester – 100% recyclable
- Meat browns inside the bag
- Meat cooks up to 10% faster
- Keeps the meat succulent and juicy
- No mess, therefore ovens and trays stay clean
- Suitable for both domestic and commercial use
- Applications in food service and in catering
- Can be supplied as single folded bags for meal kits
- Oven, microwave and freezer friendly
- Heat-seal and self-seal options available

Smartpak's ovenable bags (roasting bags) are made from polyester and are suitable for domestic and commercial cooking.

The meat browns inside the oven bag, cooks up to 10% faster, and all the juices and flavours are retained within the bag.

There is no mess with these roasting bags, therefore ovens and trays stay clean.

Polyester oven bags are 100% recyclable. A self-seal version of this bag is also now available.

Combinations of seasonings and spices, gravies and marinades can be added to the ovenable bag which enhances flavours and juiciness.

Standard sizes available are:

20cm x30cm; 25cm x38cm; 25cm x 55cm; 35cm x43cm; 45cm x55cm and 60cm x55cm.

Ovenable Bags

Cooking Bags (Nylon)

- Strong with robust sealing capabilities
- Material offers excellent clarity
- Suitable for vacuum packaging
- Pack, ship, sell and cook the product in one package
- No need to handle the food until it is ready to serve
- Unique materials absorb the hot fat released during cooking to ensure crisp, clean and safe-to-handle food
- No oven cleaning or washing up for the consumer
- Considerable cost savings on packaging and handling
- Part of our range of oven bags

Smartpak's ovenable nylon range allows food to be cooked in its own juices for added succulency. The food can be cooked without the need for a baking tray. Perfect for roasting joints of meat, poultry and whole fish. Our easy-to-seal nylon material is strong, offers good clarity, offers a good barrier and can be vacuum packed. Temperature resistant up to 210C. The material is perfect for running down all flow-wrap machines.
